MOUNT ALLISON UNIVERSITY
LITERAE SCIENTIA RELIGIO
SACKVILLE, N.B.

Oct. 7th 1919.

To The President,
Toronto University.

Dear Sir,

I am planning to take up the study of medicine next year, and would like to enter Toronto University. I understand the course is now six years instead of five, except in the case of returned soldiers who matriculated before they went over. I matriculated in all my subjects except chemistry. I would have tried to enter for medicine this year, but for the fact that my health has not been very good since I came back from overseas, and my doctor advised me to take only light work. For that reason I am taking only five subjects here at Mount Allison viz., English I, Physics I, Chemistry I, Latin I and Biology I. I am taking these subjects as I thought they would be valuable in my course. Will it be possible under these conditions for me to finish in five years? Were it not for the fact that I have already lost three years, I would much prefer to spend six years getting my degree. As matters stand

now, however, I would prefer getting through as quickly as possible. I know the "Universities" are doing all in their power to help us get back to civil life, and I would consider it a very great favour if I were to hear from you concerning this matter at your earliest convenience. I would also like to receive a calendar.

Very sincerely yours

G. B. Darby.

Address as above.

ADDRESS REPLY
TO DR. E. STANLEY RYERSON,
SECRETARY

University of Toronto
FACULTY OF MEDICINE
TORONTO, CANADA

207

October 16th, 1919

Sir Robert Falconer,

President,

University of Toronto,

Dear Mr. President,

I am returning herewith a communication from Mr. G. B. Darby regarding entrance to the second year of the Five Year Course next year.

It is difficult to tell from the Mount Allison calendar just what standing Mr. Darby could be granted. In cases like this we tell prospective students to submit certificates at the end of the year when their cases will be considered by the Faculty.

At the meeting of the Committee on Curriculum and Examinations held on Tuesday it was decided that Professor Wishart should nominate a sub-committee to consider courses given at the various Canadian Universities by corresponding with them in order to ascertain whether they can be admitted on the same standing as students from the University of Alberta.

Yours faithfully,

E. Stanley Ryerson

Secretary

October 17th, 1919

Mr. G. G. Gorby,
Mount Allison University,
Sackville, N.B.

Dear Mr. Gorby:

I have consulted the Faculty of Medicine with regard to your letter and the Secretary informs me that it is difficult to tell from the Mount Allison Calendar just what standing you could get. He is of opinion that the best way would be for you to submit certificates at the end of the year when your case can be more fully considered.

If you will please send us a fuller account of the grade of work that you are doing we will be able to let you know what can be done for you. I shall be glad when I hear from you to take up your case again.

Yours sincerely,

President.
